

## ONTARIO SECONDARY SCHOOL LITERACY TEST RESULTS: TORONTO DISTRICT SCHOOL BOARD

### Previously Eligible Students 2021-2022

The attached list presents the results for each school in the Toronto District School Board for the Ontario Secondary School Literacy Test (OSSLT) administered in 2021-22. The results presented here are for previously eligible students who did not write the test in Grade 10 (including all Grade 11 students who did not have an opportunity to write the test during the pandemic) and who were unsuccessful in previous tests. Students who are not working toward an Ontario Secondary School Diploma (OSSD) are excluded. The following statistics are provided:

- **Number of Previously Eligible:** The number of students who were previously eligible to write the test in that school
- **Absent:** The percentage of previously eligible students who were absent
- **Deferred:** The percentage of previously eligible students who were deferred
- **Taking OSSLC:** The percentage of previously eligible students who chose to take the Ontario Secondary School Literacy Course (OSSLC)
- **Number of Fully Participating:** The number of previously eligible students fully participating in the OSSLT (if they were present for both sessions of the test)
- **Successful:** The percentage of previously eligible students who fully participated in the OSSLT, with results that met or exceeded the requirements
- **Not Successful:** The percentage of previously eligible students who fully participated in the OSSLT, with results that did not meet the requirements

To protect against the disclosure of personal information associated with individual student results, a series of suppression rules are implemented for the public release of OSSLT results. Statistics have been suppressed where the number of respondents is so low that individual results could be determined from the aggregate value.

1 N/R: "Not reported" indicates that the number of participating students in a school is so small that identification of individual student results might be possible; therefore, results are not reported.

2 N/D: "No data available" is used to indicate that there were no students for the year specified.
